

## Installation procedure for a filter driver

The following steps indicate how to install a filter driver for EHCI driver in Windows XP environment.

1. Open the Device Manager and right-click on “**Standard Enhanced PCI to USB Host Controller**”.

Then, select “**Update Driver**”.

2. Select “**No, not this time**” and click “**Next >**” to continue.

3. Select **“Install from a list or specific location (Advanced)”**. Then, click **“Next >”** to continue.

4. Select **“Don't search. I will choose the driver to install”**. Then, click **“Next >”** to continue.

5. Click **“Browse”** button and select the directory where the filter drivers are located. And then, choose **“nehcicb”** and click **“Open”**.

Again, click **“OK”** button in the **“Intall From Disk”** window.

6. Click “Continue Anyway”.

7. Installation is finished.

8. After installation completed, the name of the standard EHCI driver is changed to the image shown in below.
